Ad hoc Committee Charter

Risk Assessment ad hoc Committee

Date: March 3, 2011

Membership: Chair Sara Andrews, OH, Keven Pellant, KS, Jane Seigel, IN, Leeann Bertsch, ND, Patrick McGee, MD and Genie Powers, LA

Charge of Committee

In the interest of enhancing public safety, the Commission wishes to explore the feasibility of incorporating the use of the principles of effective classification which includes risk, need, responisvity, and professional discretion in the interstate compact transfer process. Specifically, the Commission directs the Committee to consider the following:

1. Determine the feasibility of promulgating rules incorporating the use of risk assessment principles. If yes, prepare a draft of the rules for the rule committee’s consideration.
2. Determine the feasibility of identifying a single risk assessment for use with interstate compact transfer cases.
3. Address any concerns regarding the reliability of using a risk assessment as part of the interstate compact transfer process.

Date of Completion: September 14, 2011

Means of Reporting to the Commission:

The chair of the ad hoc committee will present the committee’s findings in writing at the 2011 Annual Business Meeting.
