Discussion

Misdemeanors - supervision

- Common concerns were extradition & liability.
- Compact is intended to prevent unsupervised probation of misdemeanants in the court.

Reporting Instructions - general discussion, issues

- Problems not getting the three signed consent forms on time
- D. Ege suggested the three signed consent forms accompany the RFRI, the 15 day limit be readdressed at rules committee and in the new database.
- D. Blackburn states that the Rules give jurisdiction at the time the offender arrives in receiving state.
- D. Blackburn questioned whether states need to have the signed consent forms or whether the state’s own probation agreement would cover the intent of the consent forms.

Reminder to send all Nevada packets and correspondence to the Las Vegas Office

Supervising a compact offender in your state, ultimately deny transfer, do you supervise them until they return to the sending state?

- Most states commented that after returning the transfer request as denied, they did not check to see if the offender actually left.
- D. Blackburn stated that Rule 3.105(c) intends a continuum of supervision at all times in the process; an offender is not allowed to get lost in the system.
- Suggested that the rule be examined and rewritten by the rules committee to outline the specific responsibilities of both the sending and receiving states in this instance.
- Suggestion for the NACIS database: in the event of a denial the database automatically requests reporting instructions from the sending state.

Thirty day travel permits for offenders not covered under the Rules

- A few states reported that they would support travel permits, others said they would prefer not to receive them because of the liability.

New Business

The next meeting for the West Region is scheduled for March 28th, 2005 at 2:00 PST. It was established that meetings will be scheduled every 60 days.
Comments from the Executive Director

- D. Blackburn stated that the NACIS database was making real progress. The national office just held web conferences with the IT representatives from each state. Also, the ICAOS Bench Book was almost complete and would be distributed soon.

Adjourn

The meeting was adjourned by D. Ege at 4:21 pm PST.
