Discussion of Proposed Rule Amendments to be Voted on by the Commission in January

- D. Ege reminded the region to submit their comments via the Commission website prior to the Rules Committee meeting on December 2nd.
RULE 1.101 Definitions

(ii) “Relocate” means to remain overnight in any one state for more than 90 cumulative days in any 12 month period.

- D. Ege noted the Commission passed the definition of relocate at the Commission’s Annual Business meeting in September to go into effect January 1st. The new proposed definition will be voted on at the January 19th national teleconference.
- The Rules committee added “overnight” and “cumulative” to the definition.
- D. Ege noted personal pros and cons regarding the amendment:
  - Cons: Truck Drivers traveling through states frequently
  - Pros: Offenders working in one state and living in another; prevents states to allow offenders to remain in a state for college or treatment without going through the compact; creates an out-of-state travel permit policy in a sense for jurisdictions who do not have one.
- Discussion of offenders traveling to more than one state for 90 days in a 12 month period.
- Discussion of “consecutive” vs “cumulative”
- Discussion of changing “one state” to “sending state”
- The region will propose the rule to read:
  - (ii) “Relocate” means to remain outside of a sending state for more than 45 consecutive days or 180 cumulative days in any 12 month period.

Rule 3.103 & 3.106 (added language)

Upon request from the receiving state the sending state shall transmit all signed forms within 5 business days.

- Discussion of added language to 3.103 & 3.106. D. Ege noted the proposed language was added to alleviate the need for states to get signed forms to a receiving state.

Open Discussion

- S. Skiver inquired about rejecting cases based on violations. D. Ege noted the national office has recently released an advisory opinion on the topic.
- K. Stoll requested a NACIS update by the national office
  - S. Perry stated the project has been put on hold in order to consult with IJIS, a Bureau of Justice Assistance group, about the project. Everything is scheduled to pick back up in January.
  - IJIS will be assisting with the project by reviewing the GJXML standards and the integration document to make sure NACIS is compliant with federal standards. This is important for getting grants to assist with upgrades for the system.
o Any changes in implementation and training will be communicated to the states.
  o The national office will be providing an eLearning solution to states to assist with training in their states.
  o A NACIS Newsletter will be sent out in December.
  o D. Ege noted NCIC codes will be used for state integration.

- The next West Region meeting is scheduled for January 24, 2006.
- The meeting adjourned at 3:45 pm EST.
